INFORMATION SECURITY MANAGEMENT SYSTEM [ISO 27001:2013]

World today has rapidly evolved by leveraging advancement in communication and information technology. While this technology is making inroad into all industrial sector, it has brought its own new challenges. At forefront of this is security of complete information value chain which not just concern about digital form of exchange but also dictates actual system of managing all stakeholder in information value chain.

As Rucha sustainably growing its footprint of not just it's facility but also its customer, compliance to international standard of information security is utmost important. We are glad to announce that we have successfully completed stage 2 audit and been recommended for certification by BSI for ISO 27001:2013 [Information Security Management System]. We are proud to count ourselves amongst few manufacturing companies recognizing need of the hours and pioneered compliance to this top class international standard.

A two day stage two audit has been conducted by Mr Sunil Hinge & Mr Alok Tilak from BSI. With active participation from all key well-informed stakeholders we are able to showcase our compliance and capability with breeze.
