EMPLOYEE & TEAM OF THE YEAR!

We want to be on forefront of Identifying & Recognizing individual talent along with team initiatives and contributions towards our organization.

All Rucha'ites of course actively engaged in giving our best but there is always going to be some one individual or team which are extraordinary by way of being both exceptional as well as exemplary in terms of what they contribute. To acknowledge their efforts we would like to ensure that all such individuals or teams are exclusively appreciated.

Based on these recommendations by The Management Team to The Board of Director, in this maiden year one an individual (Employee of the Year) and one a team (Team of the Year) has been identified for their exemplary contribution.

Employee of the Year: Mr. Rahul Tongire (Plant VI). Besides being the highest rated robotics programmer certified by BAL, Rahul contributed significantly and positively, along with his colleagues, in improving cycle time and productivity of silencer and cargo tray lines.

Team of the Year: Sanand Plant Team. Our Plant II did complete makeover to become one of the highly rated TML vendor. It carried out breakthrough projects in productivity improvement, yield improvement and total restructuring of make-vs-buy strategy.
